

Introducing Lane.Recovers.org

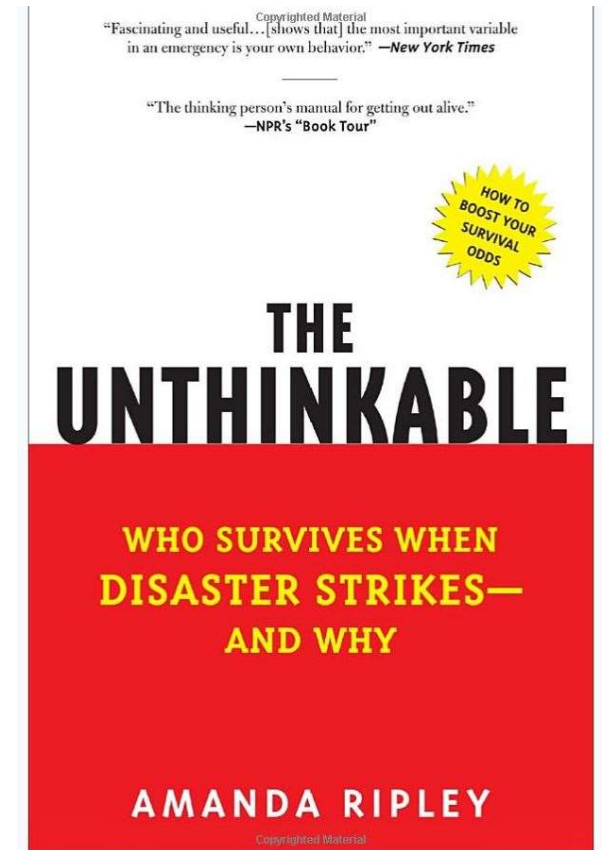

Community Organizations Active in Disaster
McKenzie Fire Response and Recovery
Fall – Winter 2020

In most major disasters, the people who will save you will **not** be wearing badges.

They will be your neighbors and coworkers.

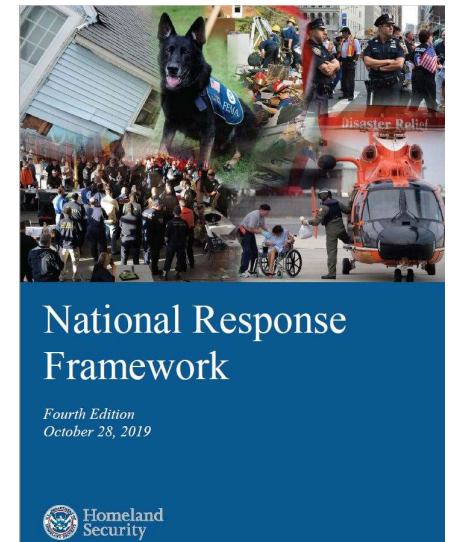

- *Amanda Ripley*

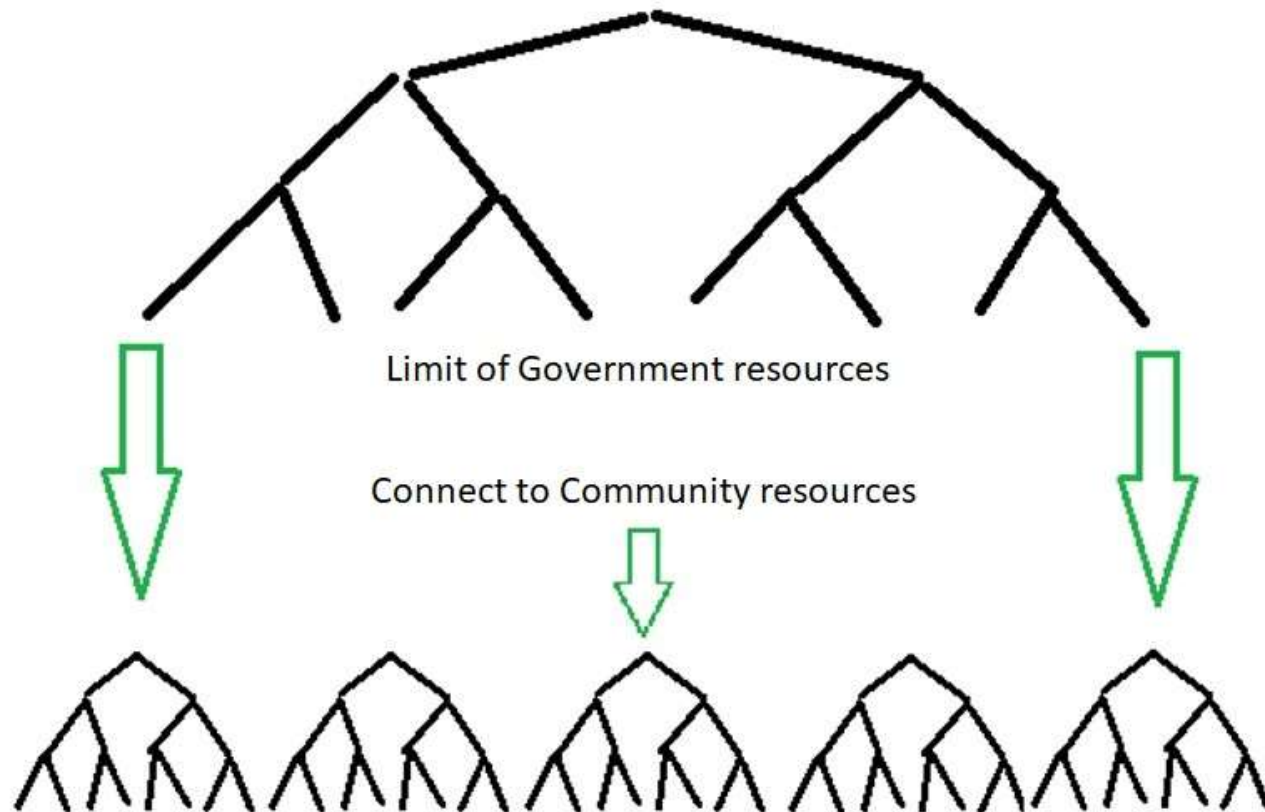

NRF: 'Whole Community' approach

Government resources alone cannot meet the needs of those affected by major disasters. All elements of the community must be activated, engaged, and integrated to respond to a major or catastrophic incident.

- Children
- Older adults
- Individuals with disabilities and others with access and functional needs
- Those from religiously, racially, and ethnically diverse backgrounds
- People with limited English proficiency
- Owners of animals, including household pets and service and assistance animals

Help build out the local response

I'm available for online coaching sessions to focus on stress, anxiety and overwhelm created by the wildfires. Coaching may include tapping/EFT, which is great for releasing trauma and stressors. I can help with shifting mindset and minimizing troubling emotions, as well as creating healthy self-care plans.
